Rotary Education: Rotary Loves Partners

Rotary encourages all members to actively engage their own partners in Rotary activities. Our Club follows this principle. New members will note in the District Directory, Rotarians are listed with their partners in parenthesis (the correct term for round brackets). In many Rotary endeavours this is the way we list members. By doing so, we wish to convey that partners can play a role within our organization. Our own Club likes to have partner's nights where we encourage partners to join our night's activities. The real message is that we are an organization of inclusion and togetherness. We value our partners and we wish to acknowledge this. It is also beneficial for partners to have a better knowledge of what their loved ones are up to at Rotary. **Members** please feel free to invite your partners along.
