Changes to Gen yet again

Rotarians, well it had to happen but my modem has short circuited for the second time, something about rain in the phone connections. Does this make sense. Bigpond is sending a new modum so we return to the A4 style Bulletin.

Our survey has suggested that we will seek some more Club information. So tonight we focus on our Director's own foci. fun questions some serious questions.

SPEAKERS' LIST

Rotarians the speakers' list or roster has become a bit scratchy lately. We seem not to quite have it flowing losing spots and some juggling. As such we are now seeking any suggestions etc to lock in some good speakers.

Our survey suggested we wanted to hear some local speakers and whilst that has occurred we did seek a local business of interest but this fell through. However overall our program is quite reasonable. So all suggestions to David or call him on 0421 098 394.

Board Discussion

Remember Rotarians if you are interested in observing a Board meeting please let the secretary know.

Whilst it is not that exciting we want all members to have a view of what the club does etc.

LAST WEEK'S SPEAKER

Last week we heard the state of the Cluster and District from our Assistant Governor, Iven Mackay. Iven will also become our District's leader for the Rotary year 2010 – 2011.

Iven canvassed our Club's achievements last year and our Club did win a District Governor award for what we accomplished.

The most interesting aspect of the address was the ensuing discussion on membership and growth in this area.

The member's passion in this area was excellent.

Committees and getting involved (repeated message)

All members will be asked to become more involved in the projects we run and please send a response to Jan our Secretary on your preferred committee. We want all your assistance.

And the fun survey; fill out what you wish, send a photo and I will take it from there.
