\*\*\*\*\* Last week's meeting \*\*\*\*\*

*Snippets from last week :The raffle was won by Garry. The Sgt was totally bamboozled by the Editor's expertise on the Sgt's question (something Melbourne Cup—the Club was shocked). Apologies were quite in as members are scattered in various places. Our Treasurer is in Bright. President John arrived after a major deal with a big smile on his face.*

*District Assembly was well attended by our Club with PP Adrian representing our Club as a Director.*

*Our Guest Speaker was fitness advisor Pat Rae. An ex policeman in Auckland the extremely well spoken Pat, took the club through some basic principles with the focus for our purposes of breathing correctly. Using our diaphragm correctly and thus better supporting the lower back by our inbuilt muscle system in that area of the body. An excellent presentation. And President John's pain during tennis has something to do with his diagonal swing, we think?*

*Members were reminded of the change of dates of our fellowship night being 23 June at La Piazza Allegra.*

*The Club enjoyed a delicious meal of barramundi so looking forward to seeing everyone at our next meeting. Note the Editor has returned and looks like he has brought the same weather from the Gold Coast, as he, like Kurt, was present during some of the worst weather in 30 years.*

*Dubbo was warm so there!*

## Book Review

There are few books that are as well written and easy to read and yet as difficult to read as this book. The subject material is very painful, particularly as so much trust is placed within families to keep their children safe. This book pulls no punches, it is told straightforwardly. The author perhaps has one weapon to tell her story, she writes exceptionally. This will be an emotional journey... but one worth taking... Bless our children.

## *When She Was Bad*

by Arabella Joseph

In 1999, at the age of twenty-two, Arabella Joseph suddenly found herself in a psychiatric hospital. An incident with a male colleague had precipitated a dramatic reminder of her past - a reminder of herself as an eleven-year-old girl who was sexually abused by her uncle. *When She Was Bad* is a heart-wrenching journey of discovery as Arabella Joseph revisits her childhood with unflinching candour. Told under a pseudonym, this beautifully written memoir of triumph and hope will move readers from the first page to the last.
