Letters from Abroad

Dateline 7 April 2011.

Location: Somewhere in the UK.

Hi Larry,

- Hottest April in 350 years.
- Smog everywhere.
- No talk of climate change or a carbon tax, not an issue. Only mention I have seen in the UK papers is to stop burning coal, but to convert to wood burning by chopping down trees in Florida.
- A referendum to introduce preferential voting defeated.
- Fabulous Royal wedding fever, we were at a party glued to the TV all day potteries sold out of wedding mugs.
- Good Friday, everything open and all sport played.
- Bluebells everywhere much to Kayes delight.
- Great pubs, 2 meals for £10, with our dollar not finding UK expensive.
- Off to Scotland today.
- Lots of cricket, rugby, London plays, concerts, museums, stately homes etc.
- Will be going to a Rotary meeting in th Cotswalds next week

Cheers from the Strongs.

Adrian Nelson makes into the press, again

😊 his edition of

Foundation News the GSE team from Texas headlined.

It seems that they had a great time all over Victoria.

However, the news failed to mention their visit to our club.

We know it a was great night for them and many friendships made.

Rotarians are encouraged to use **THE GEN** as a means of sharing information about Rotary coming events and news. Your item can be emailed to lblode@logon.com.au **Preferred deadline Friday 5pm..**
